PASSENGER LOADING

The range of your aircraft may be affected by factors such as the altitude of an airport, weather and runway conditions (wet, snow covered), temperature at departure time, runway length, actual number of passengers and the volume and weight of luggage. Hantz Air can provide you with specific information regarding any limitations required by applicable regulations and/or aircraft performance.

LUGGAGE

We strongly recommend carriage of soft-sided luggage as it allows significantly more baggage to be loaded on the aircraft. Your flight crew will store as much baggage as possible in the compartments so that there will be plenty of room in the cabin for your carry-on items. Please advise Hantz Air prior to your flight date if you wish to transport items other than personal luggage as the size and weight may be prohibitive. Hantz Air can assist you with making arrangements to ship these items to your destination.

GROUND TRANSPORTATION

Arrangements for ground transportation (limousine, car rental or taxi) can be made on your behalf. The flight crew will also call the FBO on your behalf to arrange a taxi approximately 20 minutes before landing.

SECURITY

All passengers must bring a Government issued photo ID on day of departure.
All passengers are required, prior to boarding a Hantz Air, L.L.C. aircraft, to present a valid government issued photo ID to the Hantz Air, L.L.C. crewmember.
